

Correction to “A Brief Overview of the Toxic Sphingomyelinase Ds of Brown Recluse Spider Venom and Other Organisms and Simple Methods To Detect Production of Its Signature Cyclic Ceramide Phosphate”

In the above article [Lachmayr H and Merrill A (2024) *Mol Pharmacol* **105**: 144–154; DOI: <https://doi.org/10.1124/molpharm.123.000709>], there is an error in Fig. 1. The structure of the cyclic phosphate was portrayed incorrectly such that carbon 1 appears to be missing. This error does not change the results and conclusions of the paper.

The HTML and PDF versions of the article have been corrected.
