

Correction to “Activation of the mitogen activated protein kinase extracellular signal-regulated kinase 1 and 2 by the nitric oxide–cGMP–cGMP-dependent protein kinase axis regulates the expression of matrix metalloproteinase 13 in vascular endothelial cells”

In the above article [Zaragoza C, Soria E, López E, Browning D, Balbín M, López-Otín C, and Lamas S (2002) *Mol Pharmacol* **62**:927–935], the last sentence of the abstract was incorrect. The correct sentence is: “This effect of NO may be important in the context of pathophysiological conditions such as inflammation or atherogenesis.”

We regret this error and apologize for any confusion or inconvenience it may have caused.
