CONTENTS

P. Y. Law, T. J. Ostwald, E. L. Way, and H. H. Loh. Interaction of Diazosulfanilic Acid and the Opiate Receptor: Inhibition of Specific Binding to Synaptic Membranes and Labeling of a Membrane Lipid Stereospecifically Protected by Opioids .................................................. 355

Frederick J. Ehler, William R. Roeske, and Henry I. Yamamura. Mathematical Analysis of the Kinetics of Competitive Inhibition in Neurotransmitter Receptor Binding Assays ................................................................. 367

Nancy R. Zahniser, Kim A. Heidenreich, and Perry B. Molinoff. Binding of [3H]Amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene to Striatal Membranes: Effects of Purine Nucleotides and Ultraviolet Irradiation .................................................. 372

Jan Marjan, Ralph L. Cooper, and P. Michael Conn. Regulation of the Rat Pituitary Gonadotropin-Relieving Hormone Receptor .................................................................................. 399

Harvey R. Kaslow, David Cox, Vincent E. Groppi, and Henry R. Bourne. An M$\text{r} = 52,000$ Peptide Can Mediate Effects of Cholera Toxin on Adenylate Cyclase in Intact Cells .................................................................................. 406

J. H. Chin and D. B. Goldstein. Membrane-Disordering Action of Ethanol: Variation with Membrane Cholesterol Content and Depth of the Spin Label Probe .................................................................................. 425

H. J. Galla and J. R. Trudell. Perturbation of Peptide-Induced Lateral Phase Separations in Phosphatidic Acid Bilayers by the Inhalation Anesthetic Methoxyflurane ................................................................................................. 432

Daniele Cusi and Ricardo Garay. The Effect of Tienilic Acid on Na$^+$ and K$^+$ Sodium Transport in Human Red Cells .................................................................................. 438

Ronald P. Frigon, Daniel T. O'Connell, and Gail L. Levine. Human Dopamine-$\beta$-Hydroxylase: Comparison of the Enzyme from Plasma, Adrenal Medulla, and Pheochromocytoma by Radioimmunoassay .................................................................................. 444

Sebastián Cerdán, María Cascales, and Angel Santos-Ruiz. Effect of Thioacetamide on the Pentose Phosphate Pathway and Other NADP-Linked Enzymes of Rat Liver Cytosol: Chronology of the Perturbations and Metabolic Significance .................................................................................. 451

Mitsuo Yamazaki, Kazuo Ohuchi, Masashi Sasaki, and Kiyoshi Sakai. Inhibition of 15-Hydroxyprostaglandin Dehydrogenase by 9,11-Deoxyprostaglandins in Vitro and in Vivo .................................................................................. 456

Jarle Aarbakke and Per M. Ueland. Interaction of S-Adenosylhomocysteine with Isolated Rat Hepatocytes .................................................................................. 463

Donald E. MacFarlane. The Effects of Methyl Mercury on Platelets: Induction of Aggregation and Release via Activation of the Prostaglandin Synthesis Pathway .................................................................................. 470

Susan P. C. Cole, David T. Zelt, and Gerald S. Marks. Comparison of the Effects of Griseofulvin and 3,5-Diethoxy carbonyl-1,4-dihydro-2,4,6-trimethylpyridine on Ferrochelatase Activity in Chick Embryo Liver .................................................................................. 477

(continued)
CONTENTS (cont'd)

KEVIN J. SCANLON, ARLENE R. CASHMORE, BARBARA A. MOROSON, ROBERT N. DREYER, AND JOSEPH R. BERTINO. Inhibition of Serine Metabolism by Tetrahydrohomofolate in L1210 Mouse Leukemia Cells ....................................................... 481

MICHAEL R. HAMRELL, JOHN LASZLO, AND W. DAVID SEDWICK. Transient Induction of Phenotypic Resistance in Human Lymphoblastoid Cells following Sequential Use of Two Antifolates .............................................................. 491

C. PAUL SPEARS. Nucleophilic Selectivity Ratios of Model and Clinical Alkylating Agents by 4-(4'-Nitrobenzyl)pyridine Competition .......................................................... 496

SHORT COMMUNICATIONS

JOHN M. WHITELEY, ZENIA NIMEC, AND JOHN GALIVAN. Treatment of Reuber H35 Hepatoma Cells with Carrier-Bound Methotrexate .............................................. 505

ERNST BÜRGISSER, ROBERT J. LEFKOWITZ, AND ANDRE DELEAN. Alternative Explanation for the Apparent “Two-Step” Binding Kinetics of High-Affinity Racemic Antagonist Radioligands .................................................................. 509

SUNGCHUL JI, JOHN J. LEMASTERS, AND RONALD G. THURMAN. A Fluorometric Method To Measure Sublobular Rates of Mixed-Function Oxidation in the Hemoglobin-Free Perfused Rat Liver ......................................................... 513

NORMAN CAMERMAN AND ARTHUR CAMERMAN. On the Stereochemistry of Dopaminergic Ergoline Derivatives .............................................................................. 517

SUE A. WARTELL, ROSE CHRISTOPHERSON, CLYDE A. WATKINS, AND D. EUGENE RANELS. Inhibition of Synthesis of Lung Proteins by Halothane ...................................... 520

ROBERT M. LEVIN, RICHARD JACOBY, AND ALAN J. WEIN. Effect of Adenosine Triphosphate on Contractility and Adenosine Triphosphatase Activity of the Rabbit Urinary Bladder .............................................................................. 525

AUTHOR INDEX FOR VOLUME 19 ................................................................ 529

The Subject Index for Volume 19 will appear in the November 1981 issue as part of a cumulative index for the year 1981.
