CONTENTS

SHORT COMMUNICATIONS

OE NORDSTROM, PETERIS ALBERTS, ANITA WESTLIND, ANDERS UNDEN, AND TAMAS
BARTFAI. Presynaptic Antagonist-Postsynaptic Agonist at Muscarinic Cholinergic
Synapses: N-Methyl-N-(1-methyl-4-pyrrolidino-2-butynyl)acetamide ............................. 1

STANLEY A. THAYER AND ALAN S. FAIRHURST. The Interaction of Dihydropyridine
Calcium Channel Blockers with Calmodulin and Calmodulin Inhibitors .......................... 6

LESLIE LILLY, CLAIRE M. FRASER, CHAN Y. JUNG, PHILIP SEEMAN, AND J. CRAIG VEN-
TER. Molecular Size of the Canine and Human Brain D2 Dopamine Receptor as
Determined by Radiation Inactivation ................................................................. 10

JANET DUNLAP AND JOAN HELLER BROWN. Heterogeneity of Binding Sites on Cardiac
Muscarinic Receptors Induced by the Neuromuscular Blocking Agents Gallamine and
Pancuronium ................................................................. 15

JEAN-CLAUDE MEUNIER, YAO KOUAKOU, ALAIN PUGET, AND CHRISTIANE MOISAND.
Multiple Opiate Binding Sites in the Central Nervous System of the Rabbit: Large
Predominance of a Mu Subtype in the Cerebellum and Characterization of a Kappa
Subtype in the Thalamus ......................................................................................... 23

P. PALATINI. The Interaction between Full and Partial Inhibitors Acting on a Single
Enzyme: A Theoretical Analysis .............................................................................. 30

LEONARD R. FORTE, DAVID B. BYLUND, AND WARREN L. ZAHLER. Foreskolin Does Not
Activate Sperm Adenylate Cyclase ........................................................................... 42

D. C. ANDERSON, STEVEN C. KING, AND STANLEY M. PARSONS. Pharmacological Char-
acterization of the Acetylcholine Transport System in Purified Torpedo Electric Organ
Synaptic Vesicles ......................................................................................................... 48

D. C. ANDERSON, STEVEN C. KING, AND STANLEY M. PARSONS. Inhibition of [3H]Acetyl-
choline Active Transport by Tetraphenylborate and Other Anions .............................. 55

RICHARD M. DENNEY, RICHARD R. FRITZ, NUTAN T. PATEL, STEVEN G. WIDEN, AND
CREED W. ABELL. Use of a Monoclonal Antibody for Comparative Studies of Mono-
amine Oxidase B in Mitochondrial Extracts of Human Brain and Peripheral Tissues .... 60

CLAUDIA THOMPSON AND GEORGE W. LUCIER. Hepatic Estrogen Responsiveness: Possible
Mechanisms for Sexual Dimorphism ........................................................................... 69

R. MARK EVANS, STEVEN R. PATIERNO, DE-SHIN WANG, ORAZIO CANTONI, AND MAX
COSTA. Growth Inhibition and Metallothionein Induction in Cadmium-Resistant Cells
by Essential and Non-Essential Metals ........................................................................ 77

ORAZIO CANTONI AND MAX COSTA. Correlations of DNA Strand Breaks and Their Repair
with Cell Survival following Acute Exposure to Mercury(II) and X-Rays ..................... 84

PAUL H. FISCHER, DAVID G. MURPHY, AND RODNEY KAWAHARA. Preferential Inhibition
of 5-Trifluoromethyl-2'-Deoxyuridine Phosphorylation by 5'-Amino-5'-Deoxythymidine
in Uninfected versus Herpes Simplex Virus-Infected Cells ........................................ 90

FRANK RAUSCHER, III, GAIL MUELLER, AND TERRY BEERMAN. The Effects of the Anti-
tumor Protein Auromycin on HeLa S1 Nuclei: Release of Soluble Chromatin ............. 97

DAVID S. DUCH, CHING-LUN LEE, MARK P. EDELSTEIN, AND CHARLES A. NICOL. Biosynthesis of Tetrahydrobiopterin in the Presence of Dihydrofolate Reduc-
tase Inhibitors ........................................................................................................... 103

(continued)
CONTENTS (cont'd)

JACQUES BOUCHARD AND RICHARD L. MOMPARLER. Incorporation of 5-Aza-2'-Deoxycytidine-5'-Triphosphate into DNA: Interactions with Mammalian DNA Polymerase α and DNA Methylase ................................................................. 109

KAMLISH P. VYAS, PETER J. VAN BLADEREN, DHIREN R. THAKKER, HARUHIKO YAGI, JANE M. SAYER, WAYNE LEVIN, AND DONALD M. JERINA. Regioselectivity and Stereoselectivity in the Metabolism of trans-1,2-Dihydroxy-1,2-dihydrobenz[a]anthracene by Rat Liver Microsomes ................................................................. 115

A. B. MAKAR AND T. R. TEPHLY. Effect of Nitrous Oxide and Methionine Treatments on Hepatic S-Adenosylmethionine and Methylation Reactions in the Rat ........................................................................................................... 124

MARK STEVEN MILLER, MOU-TUAN HUANG, ALAN M. JEFFREY, AND ALLAN H. CONNEY. Betamethasone-Mediated Activation of Biphenyl 2-Hydroxylation in Rat Liver Microsomes: Studies on Possible Mechanisms ......................................................... 137

TETSUYA KAMATAKI, KAORI MAEDA, YASUSHI YAMAZOE, NAOMI MATSUDA, KENJI ISHI, AND RYUICHI KATO. A High-Spin Form of Cytochrome P-450 Highly Purified from Polychlorinated Biphenyl-Treated Rats: Catalytic Characterization and Immunochemical Quantitation in Liver Microsomes .............................................................................................................. 146

IAIN G. C. ROBERTSON, COSETTE SERABJIT-SINGH, JANE E. CROFT, AND RICHARD M. PHILPOT. The Relationship between Increases in the Hepatic Content of Cytochrome P-450, Form 5, and in the Metabolism of Aromatic Amines to Mutagenic Products following Treatment of Rabbits with Phenobarbital .............................................................................................................. 156

ROBERT J. ZELEZNIKAR, JR., EUGENE E. QUIST, AND LESTER R. DREWES. An Alpha-Adrenergic Receptor-Mediated Phosphatidylinositol Effect in Canine Cerebral Microvessels ............................................................................................................. 163

ERRATUM ......................................................................................................................................................................................... 168
