CONTENTS

SHORT COMMUNICATIONS

Ole Nordström, Peteris Alberts, Anita Westlind, Anders Undén, and Tamas Bartfai. Presynaptic Antagonist-Postsynaptic Agonist at Muscarinic Cholinergic Synapses: N-Methyl-N-(1-methyl-4-pyrrolidino-2-butynyl)acetamide ................................................................. 1

Stanley A. Thayer and Alan S. Fairhurst. The Interaction of Dihydropyridine Calcium Channel Blockers with Calmodulin and Calmodulin Inhibitors .................................................. 6

Leslie Lilly, Claire M. Fraser, Chan Y. Jung, Philip Seeman, and J. Craig Venters. Molecular Size of the Canine and Human Brain D2 Dopamine Receptor as Determined by Radiation Inactivation .................................................. 10

Janet Dunlap and Joan Heller Brown. Heterogeneity of Binding Sites on Cardiac Muscarinic Receptors Induced by the Neuromuscular Blocking Agents Gallamine and Pancuronium ................................................................. 15

Jean-Claude Meunier, Yao Kouakou, Alain Puget, and Christiane Moisand. Multiple Opiate Binding Sites in the Central Nervous System of the Rabbit: Large Predominance of a Mu Subtype in the Cerebellum and Characterization of a Kappa Subtype in the Thalamus ................................................................. 23

P. Palatini. The Interaction between Full and Partial Inhibitors Acting on a Single Enzyme: A Theoretical Analysis ................................................................. 30

D. C. Anderson, Steven C. King, and Stanley M. Parsons. Pharmacological Characterization of the Acetylcholine Transport System in Purified Torpedo Electric Organ Synaptic Vesicles ................................................................. 48

D. C. Anderson, Steven C. King, and Stanley M. Parsons. Inhibition of [3H]Acetylcholine Active Transport by Tetraphenylborate and Other Anions ................................................................. 55

Claudia Thompson and George W. Lucier. Hepatic Estrogen Responsiveness: Possible Mechanisms for Sexual Dimorphism ................................................................. 69

R. Mark Evans, Steven R. Patierno, De-Shin Wang, Orazio Cantoni, and Max Costa. Growth Inhibition and Metallothionein Induction in Cadmium-Resistant Cells by Essential and Non-Essential Metals ................................................................. 77

Orazio Cantoni and Max Costa. Correlations of DNA Strand Breaks and Their Repair with Cell Survival following Acute Exposure to Mercury(II) and X-Rays ................................................................. 84

Paul H. Fischer, David G. Murphy, and Rodney Kawahara. Preferential Inhibition of 5-Trifluoromethyl-2'-Deoxyuridine Phosphorylation by 5'-Amino-5'-Deoxythymidine in Uninfected versus Herpes Simplex Virus-Infected Cells ................................................................. 90

Frank Rauscher, III, Gail Mueller, and Terry Beermaan. The Effects of the Antitumor Protein Auromycin on HeLa S1 Nuclei: Release of Soluble Chromatin ................................................................. 97

David S. Duch, Ching-Lun Lee, Mark P. Edelstein, and Charles A. Nichol. Biosynthesis of Tetrahydrobiopterin in the Presence of Dihydrofolate Reductase Inhibitors ................................................................. 103

(continued)
CONTENTS (cont’d)

JAQUES BOUCHARD AND RICHARD L. MOMPARLER. Incorporation of 5-Aza-2’-Deoxycytidine-5’-Triphosphate into DNA: Interactions with Mammalian DNA Polymerase α and DNA Methylase ................................................................. 109

KAMLESH P. VYAS, PETER J. VAN BLADEREN, DHIREN R. THAKKER, HARUHIKO YAGI, JANE M. SAYER, WAYNE LEVIN, AND DONALD M. JERINA. Regioselectivity and Stereoselectivity in the Metabolism of trans-1,2-Dihydroxy-1,2-dihydrobenz[a]anthracene by Rat Liver Microsomes ..................................................................................... 115

A. B. MAKAR AND T. R. TEPHLY. Effect of Nitrous Oxide and Methionine Treatments on Hepatic S-Adenosylmethionine and Methylation Reactions in the Rat ................................................................. 124

MARK STEVEN MILLER, MOU-TUAN HUANG, ALAN M. JEFFREY, AND ALLAN H. CONNEY. Betamethasone-Mediated Activation of Biphenyl 2-Hydroxylation in Rat Liver Microsomes: Studies on Possible Mechanisms ................................................................. 137

TETSUYA KAMATAKI, KAORI MAEDA, YASUSHI YAMAZOE, NAOMI MATSUDA, KENJI ISHII, AND RYUICHI KATO. A High-Spin Form of Cytochrome P-450 Highly Purified from Polychlorinated Biphenyl-Treated Rats: Catalytic Characterization and Immunochemical Quantitation in Liver Microsomes ........................................................................ 146

IAIN G. C. ROBERTSON, COSETTE SERABIT-SINGH, JANE E. CROFT, AND RICHARD M. PHILPOT. The Relationship between Increases in the Hepatic Content of Cytochrome P-450, Form 5, and in the Metabolism of Aromatic Amines to Mutagenic Products following Treatment of Rabbits with Phenobarbital ............................................................................. 156

ROBERT J. ZELEZNIKAR, JR., EUGENE E. QUIST, AND LESTER R. DREWES. An Alpha1-Adrenergic Receptor-Mediated Phosphatidylinositol Effect in Canine Cerebral Microvessels ......................................................................................... 163

ERRATUM ......................................................................................................................... 168
