CONTENTS

PHILIP SEEMAN, MASAYUKI WATANABE, DIMITRI GRIGORIADIS, JOSEPH TEDESCO, AND SUSAN R. GEORGE. Dopamine D₂ Receptor Binding Sites for Agonists: A Tetrahedral Model ......................................................... 391

KATHRYN K. McMAHON AND M. MARLENE HOSEY. Agonist Interactions with Cardiac Muscarinic Receptors: Effects of Mg²⁺, Guanine Nucleotides, and Monovalent Cations ..................................................... 400

FREDERICK J. EHLERT. The Relationship between Muscarinic Receptor Occupancy and Adenylate Cyclase Inhibition in the Rabbit Myocardium ...................................................... 410

JOHN T. TURNER, CARLA RAY-PRENGER, AND DAVID B. BYLUND. α₂-Adrenergic Receptors in the Human Cell Line, HT29: Characterization with the Full Agonist Radioligand [³H]UK-14,304 and Inhibition of Adenylate Cyclase ..................... 422

JEREMY M. HENLEY. Epinephrine-Stimulated Maintained Rubidium Efflux from Guinea Pig Hepatocytes May Involve α₁- and α₂-Adrenoceptors .......................................................... 431

PAUL CULVER, MARK BURCH, CAROL POTENZA, LINDA WASSERMAN, WILLIAM FENICAL, AND PALMER TAYLOR. a₂-Adrenergic Receptors in the Human Cell Line, HT29: Characterization with the Full Agonist Radioligand [³H]UK-14,304 and Inhibition of Adenylate Cyclase ..................... 422

ANDREW S. KENDE, FRANK H. EBETINO, WILLIAM B. DRENDEL, M. SUNDARALINGAM, EDWARD GLOVER, AND ALAN POLAND. Structure-Activity Relationships for the Irreversible Blockade of Nicotinic Receptor Agonist Sites by Lophotoxin and Congeneric Diterpene Lactones ................................................................. 436

JAMES D. MOYER, JEAN M. KARLE, NANCY MALINOWSKI, VICTOR E. MARQUEZ, MOHAMMED A. SALAM, LOUIS MALSPES, AND RICHARD CYSYK. Inhibition of Uridine Kinase and the Salvage of Uridine by Modified Pyrimidine Nucleosides ..................................................... 454

SONDRA H. BERGER, CHUNG-HER JENH, LEE F. JOHNSON, AND FRANKLIN G. BERGER. Thymidylate Synthase Overproduction and Gene Amplification in Fluorodeoxyuridine-Resistant Human Cells ......................................................... 461

RICHARD R. NEUBIG, ROBIN D. GANTZOS, AND ROBERT S. BRAZIER. Agonist and Antagonist Binding to α₂-Adrenergic Receptors in Purified Membranes from Human Platelets: Implications of Receptor-Inhibitory Nucleotide-Binding Protein Stoichiometry . 475
