Why Publish with ASPET?

Because ASPET gives you these advantages:

♦ **Low Page Charges** — $40/page for ASPET members, $80/page for nonmembers

♦ **Low Color Fees** — $200/color figure for ASPET members, $400/color figure for nonmembers

♦ **Online Manuscript Submission** — submit your manuscript 24/7 — whenever it suits your schedule; online peer review reduces review times; track the progress of your manuscript through the review process

♦ **Publish Online Ahead of Print** — manuscripts are published online shortly after acceptance — at least two months prior to print publication

♦ **Wide Dissemination** — accepted manuscripts are freely accessible immediately, fully formatted articles are freely accessible 12 months after publication; low-cost pay-per-view option for nonsubscribers; abstracts and tables of contents always freely accessible

Training Opportunities for Graduate Students and PhDs

NIGMS Summer Short Courses in Integrative and Organ Systems Science

The National Institute of General Medical Sciences (NIGMS) is funding four summer short courses that provide specialized training for using intact organ system and in vivo animal models in the conduct of research. The purpose of each short course is to introduce graduate students and Ph.D.s to the knowledge and skills needed for integrative studies of organ systems and intact animals, and the physiological and biochemical responses of these systems to drugs. These critical skills are in short supply. Graduate students and Ph.D.s with these skills are in great demand in both academic and industrial settings. In 2010, NIGMS summer short courses will be offered at Michigan State University, University of Nebraska Medical Center University of North Carolina at Chapel Hill, and Vanderbilt University School of Medicine.

AScPET-Integrative Organ Systems Sciences(IOSS) Fund

The ASPET-IOSS Fund was created to provide support for graduate students and post-doctoral researchers seeking training in integrative, whole organ systems sciences. The ASPET-IOSS Fund will augment developing programs that provide training of students in integrative, whole organ systems sciences. The ASPET-IOSS Fund hopes to contribute to developing infrastructure to sustain and expand training in this critical area of research. Applications will be reviewed upon receipt and on a continuing basis. The ASPET-IOSS Awards are primarily available to support graduate students and post-docs who participate in an industry sponsored internship that furthers the students’ training and exposure to integrative, whole organ biology.
