Based in Groton, Connecticut, the Pfizer Neuroscience Fellowship Program provides an unparalleled opportunity for young scientists interested in understanding brain disorders and translating knowledge into innovative medicines. We seek motivated and enthusiastic individuals with a demonstrated track record in basic or translational neuroscience interested in pursuing an academic-style post-doc in an industry setting. Successful candidates will come from a range of backgrounds including molecular/cellular biology, protein biochemistry, in vitro and in vivo electrophysiology, imaging, neurochemistry, systems neuroscience, computational biology, animal models of disease, synapse biology and behavioral/cognitive neuroscience.

Postdoctoral positions are available in the following disease areas:

- Alzheimer’s disease and other dementias
- Autism
- Bipolar Disorder
- Depression
- Huntington’s disease
- Parkinson’s disease
- Schizophrenia

Postdoctoral fellows will gain access to the resources, experience and collaborative industrial-academic network available within the Neuroscience Research Unit, conduct independent research, publish high profile papers on cutting edge areas of neuroscience, and attend and present at international scientific meetings. At the same time, postdoctoral fellows will contribute to Pfizer’s commitment to deliver new innovative medicines that effectively treat neurological and psychiatric diseases.

Interested candidates can explore and apply for these competitive positions at www.PfizerNeuroscience.com. Applications are received and reviewed in the spring and fall. The deadline for spring applications is April 1st and for fall applications is October 1st. Fellowships are extremely competitive. We anticipate inviting a small number of candidates to interview in May and November at the Pfizer Groton Research Laboratories.
ASPET Membership

The Benefits Add Up!

ASPET Membership Includes Online Access to:
- Journal of Pharmacology and Experimental Therapeutics
- Pharmacological Reviews
- Molecular Pharmacology
- Drug Metabolism and Disposition
- Molecular Interventions (print subscription also included)

Members Save 50% on Page Charges and Color Fees
- $40/page for members versus $80 for nonmembers
- $200/color figure for members versus $400 for nonmembers
Includes JPET, Molecular Pharmacology, and DMD

Reduced Registration Fees for ASPET Meetings — Including Experimental Biology

Public Affairs Advocacy for Increased Research Funding and Science Policy Favorable to Biomedical Research — Public policy reports provided regularly

Personal print subscriptions are available only to ASPET members:
- Journal of Pharmacology and Experimental Therapeutics - $220
- Pharmacological Reviews - $89
- Molecular Pharmacology - $180
- Drug Metabolism and Disposition - $151
Prices are for 2011
