

# Correction to “Involvement of 5-HT<sub>1A</sub> and 5-HT<sub>2A</sub> Receptors but Not $\alpha_2$ -Adrenoceptors in the Acute Electrophysiological Effects of Cariprazine in the Rat Brain In Vivo”

In the above article [Herman A, El Mansari M, Adham N, Kiss B, Farkas B, and Blier P (2018) *Mol. Pharmacol* **94**(6): 1363-1370; doi: <https://doi.org/10.1124/mol.118.113290>], the legend on Y-axis of figure 1A is incorrectly labeled. The correct label should be ‘DRN 5-HT neuron firing (Spikes/10s)’. A corrected Figure 1 is provided below. The HTML and PDF version of the paper have been corrected.
