

# MOLECULAR PHARMACOLOGY

May 2023

Volume 103

Number 5

[molpharm.aspetjournals.org](http://molpharm.aspetjournals.org)

ISSN 1521-0111

## MINIREVIEW

Aryl Hydrocarbon Receptor as a Therapeutic Target of Environmentally Induced Skin Conditions

*Caroline de Almeida Freitas Accioli, Michelle Sabrina da Silva, Bianca Aloise Maneira Corrêa Santos, and Carlos Rangel Rodrigues*

255

## ARTICLES

Alkannin Attenuates Amyloid  $\beta$  Aggregation and Alzheimer's Disease Pathology

*Toru Hosoi, Kyosuke Yazawa, Michihiro Imada, Akari Tawara, Chihiro Tohda, Yasuyuki Nomura, and Koichiro Ozawa*

266

Application of Mixed-Solvent Molecular Dynamics Simulations for Prediction of Allosteric Sites on G Protein-Coupled Receptors

*Wallace K.B. Chan, Heather A. Carlson, and John R. Traynor*

274

BAY58-2667 Activates Different Soluble Guanylyl Cyclase Species by Distinct Mechanisms that Indicate Its Principal Target in Cells is the Heme-Free Soluble Guanylyl Cyclase-Heat Shock Protein 90 Complex

*Yue Dai and Dennis J. Stuehr*

286

## ERRATUM

Correction to "A Novel Semisynthetic Inhibitor of the FRB Domain of Mammalian Target of Rapamycin Blocks Proliferation and Triggers Apoptosis in Chemoresistant Prostate Cancer Cells"

297

Correction to "The Common LncRNAs of Neuroinflammation-Related Diseases"

298

Supplemental material is available online at <http://molpharm.aspetjournals.org>.

*About the cover:* Allosteric Site Prediction for Cannabinoid Receptor Type 1 (CB1R). See the article by Chan et al. ([dx.doi.org/10.1124/molpharm.122.000612](https://doi.org/10.1124/molpharm.122.000612)).
