

ANNOUNCEMENT

The Bernard B. Brodie Award in Drug Metabolism

This award has been established by the Ciba-Geigy Corporation of Summit, New Jersey, to honor the fundamental contributions of Bernard B. Brodie in the field of drug metabolism and disposition. The award, consisting of a honorarium of \$2000, a commemorative medal, and a certificate, is presented every other year to recognize outstanding original research contributions in drug metabolism and disposition, particularly those having a major impact on future research in the field.

Only *one* sponsor is necessary (although more are acceptable), and the sponsor need not be a member of ASPET.

The only restriction for the award is that nominees must be members of the American Society for Pharmacology and Experimental Therapeutics (ASPET) and that supporting research accomplishments must not have been used to win any other major award.

Supporting data for nominations shall be accompanied by six copies of each of the following:

1. curriculum vitae and bibliography;
2. selections and comments on the outstanding papers;
3. nominating letter and other supporting letters detailing accomplishments of nominee.

Nominations for the award should be sent to Dr. Howard B. Hucker, Chairman of the Bernard B. Brodie Award Committee, Merck Institute for Therapeutic Research, West Point, PA 19486, no later than December 1, 1977.

The first recipient of the award will be announced at the 1978 ASPET Spring Meeting banquet and the award with the medal and certificate will be formally presented to the recipient at the 1978 ASPET Fall Meeting. A talk delivered by the awardee on this occasion, describing appropriate research accomplishments and their future direction, will be published in *Drug Metabolism and Disposition*. Travel expenses to the meeting for the winner will be paid by the donor.
