null
CONTENTS (cont'd)

DIMITRIOS L. KALPAXIS AND CHARALAMBSO COUTSOGEORGOPoulos. Type of Inhibition of Peptide Bond Formation by Chloramphenicol Depends on the Temperature and the Concentration of Ammonium Ions .................................................. 615

CYNTHIA J. HUMPHREYS, DAN CASSEL, AND GARY RUDNICK. 2-Iodoimipramine, a Novel Ligand for the Serotonin Transporter .......................................................... 620

CHRISTOPHER S. KONKOY AND STEVEN R. CHILDERS. Dynorphin-Selective Inhibition of Adenylyl Cyclase in Guinea Pig Cerebellum Membranes ........................................... 627

R. PRESTON MASON, SIMON F. CAMPBELL, SHOU-DAO WANG, AND LEO G. HERBETTE. Comparison of Location and Binding for the Positively Charged 1,4-Dihydropyridine Calcium Channel Antagonist Amlodipine with Uncharged Drugs of this Class in Cardiac Membranes .............................................................................. 634

STEPHEN B. LIGGETT, MICHEL BOUVIER, WILLIAM P. HAUSDORFF, BRIAN O'DOWD, MARC G. CARON, AND ROBERT J. LEFKOWITZ. Altered Patterns of Agonist-Stimulated cAMP Accumulation in Cells Expressing Mutant \( \beta_2 \)-Adrenergic Receptors Lacking Phosphorylation Sites ......................................................................................................................... 641

STEPHANIE RENS-DOMIANO, GLEN L.HORTIN, AND JEROME A. ROTH. Sulfation of tert-Butoxycarbonylcholecystokinin and Other Peptides by Rat Liver Tyrosylprotein Sulfotransferase .................................................................................. 647

J. N. M. COMMANDEUR, F. J. J. DE KANTER, AND N. P. E. VERMEULEN. Bioactivation of the Cysteine-S-Conjugate and Mercapturic Acid of Tetrafluoroethylene to Acylating Reactive Intermediates in the Rat: Dependence of Activation and Deactivation Activities on Acetyl Coenzyme A Availability ............................................................................. 654

PHILIP PALADE, CHRISTINE DETTBARN, POMPEO VOLPE, BARBARA ALDERSON, AND ANGELA S. OTERO. Direct Inhibition of Inositol-1,4,5-trisphosphate-Induced \( \text{Ca}^{2+} \) Release from Brain Microsomes by \( K^+ \) Channel Blockers .............................................................................................................. 664

PHILIP PALADE, CHRISTINE DETTBARN, BARBARA ALDERSON, AND POMPEO VOLPE. Pharmacologic Differentiation between Inositol-1,4,5-trisphosphate-Induced \( \text{Ca}^{2+} \) Release and \( \text{Ca}^{2+} \)-or Caffeine-Induced \( \text{Ca}^{2+} \) Release from Intracellular Membrane Systems ... 673
