Variation in Human Thymidylate Synthase Is Associated with Resistance to 5-Fluoro-2'-deoxyuridine

Tamoxifen Stimulates Expression of the c-fos Proto-Oncogene in Rodent Uterus

Sequence Selectivity of Topoisomerase II DNA Cleavage Stimulated by Mitoxantrone Derivatives: Relationships to Drug DNA Binding and Cellular Effects

Marked Endogenous Activation of the CYP1A1 and CYP1A2 Genes in the Congenitally Jaundiced Gunn Rat

Effects of Agonists, Partial Agonists, and Antagonists on the Regulation of 5-Hydroxytryptamine2 Receptors in P11 Cells

Subsecond Modulation of Formyl Peptide-Linked Guanine Nucleotide-Binding Proteins by Guanosine 5'-O-(3-Thio)triphosphate in Permeabilized Neutrophils

Isolation of Glucagon Antagonists by Random Molecular Mutagenesis and Screening

Unique Binding Characteristics of Antipsychotic Agents Interacting with Human Dopamine D2A, D2B, and D3 Receptors

Characterization of Bombesin Receptors Using a Novel, Potent, Radiolabeled Antagonist That Distinguishes Bombesin Receptor Subtypes

Development of Natriuretic Peptide Analogs Selective for the Atrial Natriuretic Factor-R1A Receptor Subtype

Inhalational Anesthetic Actions on Voltage-Gated Ion Currents of Bovine Adrenal Chromaffin Cells

CONTENTS (cont'd)
CONTENTS (cont’d)

795 Indomethacin/Ibuprofen-like Anti-inflammatory Agents Selectively Potentiate the γ-Aminobutyric Acid-Antagonistic Effects of Several Norfloxacin-like Quinolone Antibacterial Agents on [35S]t-Butylbicyclophosphorothionate Binding

Richard F. Squires and Else Saederup

801 Comparison of Interactions of [3H]Muscimol, t-Butylbicyclophosphorothionate and [3H]Flunitrazepam with Cloned γ-Aminobutyric Acid Receptors of the α1β2 and the α1β2γ2 Subtypes

Jeff F. Pregenzer, Wha Bin Im, Donald B. Carter, and Darrell R. Thomsen

807 Modulation by Albumin of Neuronal Cholinergic Sensitivity

Devorah Gurantz, Joseph F. Margiotta, Alec T. Harootunian, and Vincent E. Dionne

813 Pregnenolone Sulfate Potentiation of N-Methyl-d-aspartate Receptor Channels in Hippocampal Neurons

Mark R. Bowby

820 Extracellular Localization of the Benzothiazepine Binding Domain of L-Type Ca2+ Channels

Steffen Hering, Alexej Savchenko, Carsten Strübing, Marion Lakitsch, and Jörg Striessnig

827 Major Pathway of Imipramine Metabolism Is Catalyzed by Cytochromes P-450 1A2 and P-450 3A4 in Human Liver

Antoinette Lemoine, Jean Charles Gautier, Daniel Azoulay, Liliane Kiffel, Claire Belloc, F. Peter Guengerich, Patrick Maurel, Philippe Beaune, and Jean Paul Leroux
