CONTENTS (cont'd)

402 Pituitary Cell Line GH3 Expresses Two Somatostatin Receptor Subtypes that Inhibit Adenylyl Cyclase: Functional Expression of Rat Somatostatin Receptor Subtypes 1 and 2 in Human Embryonic Kidney 293 Cells

Pablo D. Garcia and Richard M. Myers

410 Rat Somatostatin Receptor Type 1 Couples to G Proteins and Inhibition of Cyclic AMP Accumulation

John R. Hadcock, Joann Strnad, and C. Mark Eppler

417 Molecular Cloning, Functional Characterization, and Chromosomal Localization of a Human Somatostatin Receptor (Somatostatin Receptor Type 5) with Preferential Affinity for Somatostatin-28

428 The Aryl Hydrocarbon Receptor and Aryl Hydrocarbon Receptor Nuclear Translocator Protein Show Distinct Subcellular Localizations in HEPA 1c1c7 Cells by Immunofluorescence Microscopy

Richard S. Pollenz, Carol A. Sattler, and Alan Poland

439 Localization of a Pioglitazone Response Element in the Adipocyte Fatty Acid-Binding Protein Gene

Peter K. W. Harris and Rolf F. Kletzien

446 Antimalarial Action of Hydrophilic Drugs: Involvement of Aqueous Access Routes to Intracellular Parasites

Mark Loyevsky and Z. Ioav Cabantchik

453 Human Metallothionein Isoform Gene Expression in Cisplatin-Sensitive and Resistant Cells

Ya-Yun Yang, Elizabeth S. Woo, Celeste E. Reese, Robert R. Bahnson, Nagahiro Saijo, and John S. Lazo

461 Human Histamine N-Methyltransferase Pharmacogenetics: Cloning and Expression of Kidney cDNA

469 Coordinate Induction of Glutathione S-Transferase α, μ, and π Expression in Murine Liver after a Single Administration of Oltipraz

Margie L. Clapper, Lynette C. Everley, Laura S. Strobel, Alan J. Townsend, and Paul F. Engstrom

475 Formation of Heteromeric γ-Aminobutyric Acid Type A Receptors Containing Two Different α Subunits

Todd A. Verdoorn

481 Differential Expression of the β-Adrenergic Receptor Modifies Agonist Stimulation of Adenylyl Cyclase: A Quantitative Evaluation

Brenda S. Whaley, Nanyong Yuan, Lutz Birnbaumer, Richard B. Clark, and Roger Barber

490 Inverse Agonist Activity of β-Adrenergic Antagonists

Peter Chidiac, Terence E. Hebert, Manon Valiquette, Michael Dennis, and Michel Bouvier
