## It's the first time since 1983 that CPT is held in North America. Do not miss this one!

CPT2008 will bring together recognized international experts, in all areas of clinical pharmacology, clinical pharmacy, basic pharmacology, toxicology and pharmacoepidemiology to support better health outcomes and rational use of drugs.

The exciting program will appeal to attendees whose interests range from the molecular to community health. New sciences of pharmacogenomics and proteomics will be well represented. The program will allow open discussions on the advances of drug research and utilization.

The celebration of 400 years of Québec City history will provide an outstanding backdrop to sizzling science.

The NEW FASEB Directory of Members Online is at www.faseb.org/directory. It is now a secure website available only to members of participating FASEB Societies. If you are a member of one or more of the following Societies, you have free access to professional colleagues around the world.

- The American Physiological Society
- American Society for Biochemistry and **Molecular Biology**
- American Society for Pharmacology and **Experimental Therapeutics**
- American Society for Investigative Pathology
- American Society for Nutrition
- The American Association of Immunologists
- American Association of Anatomists
- The Protein Society
- Society for Developmental Biology
- The American Society of Human Genetics

The Directory is an essential reference for the life science community because it contains thousands of individuals representing the Federation's participating Member Societies. We encourage you to keep your record up-todate and use this online resource for obtaining contact information for your colleagues.

#### CENTER FOR MEMORY AND LEARNING

Department of Molecular & Cellular Biology

#### **Tenure Track Faculty Position**

Baylor College of Medicine is recruiting a tenure track Assistant or Associate Professor who utilizes the tools of contemporary molecular biology and/or pharmacology to investigate the fundamental mechanisms of learning and memory. Candidates who use animal models to study learning and memory and who have a record of accomplishment in the application of molecular/pharmacological and behavioral approaches are encouraged to apply. We encourage applications from candidates who have an interest in the development of pharmacological agents that alter cognition. Candidates should have a Ph.D. and/or M.D. and postdoctoral experience. The candidate will have their primary faculty appointment in the Department of Molecular and Cellular Biology and be a member of the Center for Memory and Learning, with opportunities for chi rlcvkqpu" with other departments and programs. The position will provide a competitive allowance for laboratory start up and ongoing support. Send curriculum vitae and statement of research interests electronically as a single PDF to rdavis@bcm.tmc.edu. Have hard copies of at least three letters of reference sent to: Ronald L.
