A Publication of the American Society for  
Pharmacology and Experimental Therapeutics

# To maximize your research, humanize your mice.

Taconic's innovative capabilities of generating custom humanized mouse models can help revitalize basic research and bring greater predictability to compound evaluation.

Humanization can save time, cut costs, and accelerate your research.

**Taconic. Smart. Very Smart.**

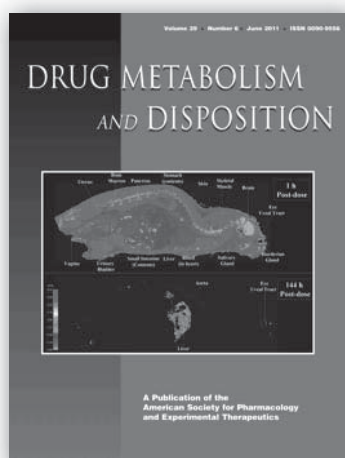

Get all the facts at [www.taconic.com/human](http://www.taconic.com/human)  
See September, 2011 paper on humanized mouse  
lines in Molecular Pharmacology

# ASPET Journals

## ASPET Journals Online Only Starting in 2012

Starting in 2012, all ASPET journals will be available online only. If you are an institutional print subscriber or a member print subscriber, you already have online access. If you have not already activated your online access, you should do so. For assistance, please email [subscriptions@aspet.org](mailto:subscriptions@aspet.org).

For more information on the change to the online only format, or to subscribe to an ASPET journal, visit us online at [www.aspetjournals.org](http://www.aspetjournals.org).
