

# Correction to “The Tumor Proteasome Is a Primary Target for the Natural Anticancer Compound Withaferin A Isolated from ‘Indian Winter Cherry’”

In the above article [Yang H, Shi G, and Dou QP (2007) *Mol Pharmacol* 71:426–437], there is an error in the picture of the cells treated with 20  $\mu\text{M}$  of *Withaferin A* in Fig. 3E, which occurred during the figure preparation. The panel for the 20  $\mu\text{M}$  treatment is a duplication of the panel for the 10  $\mu\text{M}$  treatment.

The corrected figure appears below.
