

Correction to “Berberine Reverses Epithelial-to-Mesenchymal Transition and Inhibits Metastasis and Tumor-Induced Angiogenesis in Human Cervical Cancer Cells”

In the above article [Chu S-C, Yu C-C, Hsu L-S, Chen K-S, Su M-Y, and Chen P-N (2014) *Mol Pharmacol* **86**:609–623], errors were made while uploading two figures, Figures 4C and 5C. As a result, the published microscopy images of cell invasion for treatment of berberine on TGF- β 1-induced invasion of SiHa cells and treatment of berberine on VEGF-induced tube formation of HUVEC cells are incorrect. The correct versions of Figure 4(C) and Figure 5(H) appear below.

This error does not change the scientific conclusions of the paper in any way.

The authors regret these errors and any inconvenience they may have caused.
