PERSPECTIVE

Does COVID19 Infect the Brain? If So, Smokers Might Be at a Higher Risk

Nadine Kabbani and James L. Olds

351

ARTICLES

Carboxy-Terminal Phosphoregulation of the Long Splice Isoform of Free-Fatty Acid Receptor-4 Mediates β -Arrestin Recruitment and Signaling to ERK1/2

Ilya S. Senatorov, Ameneh Cheshmehkani, Rebecca N. Burns, Kirti Singh, and Nader H. Moniri

304

Obeticholic Acid Ameliorates Valproic Acid-Induced Hepatic Steatosis and Oxidative Stress

Zhibo Gai, Evelin Krajnc, Sophia L. Samodelov, Michele Visentin, and Gerd A. Kullak-Ublick

314

Pathogen-Associated Molecular Pattern-Induced TLR2 and TLR4 Activation Increases Keratinocyte Production of Inflammatory Mediators and is Inhibited by Phosphatidylglycerol

Vivek Choudhary, Shantelle Griffith, Xunsheng Chen, and Wendy B. Bollag

324

Auxiliary Proteins are the Predominant Determinants of Differential Efficacy of Clinical Candidates Acting as AMPA Receptor Positive Allosteric Modulators

Toshiyuki Ishii, Jacob R. Stolz, and Geoffrey T. Swanson

336

ERRATUM

Correction to "Pathogen-Associated Molecular Pattern-Induced TLR2 and TLR4 Activation Increases Keratinocyte Production of Inflammatory Mediators and Is Inhibited by Phosphatidylglycerol"
