

Correction to “Functional RNAi Screens Define Distinct Protein Kinase Vulnerabilities in EGFR-Dependent HNSCC Cell Lines”

In the above article [Hinz TK, Kleczko EK, Singleton KR, Calhoun J, Marek LA, Kim J, Tan AC, and Heasley LE (2019) *Mol Pharmacol*, **96**: 862-870; DOI: <https://doi.org/10.1124/mol.119.117804>], funding from the National Institutes of Health National Cancer Institute was not cited. The funding footnote should read:

The studies were supported by a VA grant [Merit Award 1BX001994-01] to LEH and the UC Cancer Center Support Grant [P30 CA046934], which was supported by the National Institutes of Health National Cancer Institute [Grant CA046934].

The authors apologize for any inconvenience caused by this error.
