Molecular Pharmacology

Anti-proliferation activity of a small molecule repressor of LRH-1

Cesar Corzo, Yelenis Mari, Mi Ra Chang, Dana Kuruvilla, Philippe Nuhant, Naresh Kumar, Graham M. West, Derek R. Duckett, William R. Roush, and Patrick R. Griffin

Supplemental Figure 1: Vetscan analysis of blood from mice treated with SR1848 (30mg.kg⁻¹) for 10 days

Supplemental Figure 2. Proliferation measurement of Huh-7 cells and SKOV-3 cells comparing the amount of cells present before addition of the compound (time zero) and after 48h with SR1848 (5uM).
